

Dear YMCA Members,

Thank you for your support through this pandemic crisis. Your YMCA did everything right and did not have a single COVID-19 case, close contact or health department call linked back to the YMCA main facility. Still, I find myself having to share the frustrating news that the Governor has closed our YMCA effective at the end of business on Friday, November 20. We will be closed for four weeks. Please stay safe by wearing your mask, social distancing and staying at home if possible, and washing your hands. The sooner the virus transmission is again slowed, the more apt your Y will be able to welcome you back mid-December.

Our Early Learning Centers and School Age programming will continue to operate to keep our community's kids on track with distance learning. The Evening Meal Service on Mondays and Thursdays which provides seven free evening meals for children under 18 will also continue.

While the main facility will close, the Y will be offering an upgraded membership with equipment option where members can add a one-month rental of a machine or fitness class equipment to their membership to workout at home. Live classes via zoom and Facebook live for group ex and cycling will be available for members to join in from home beginning on Monday, November 30. Thanks to Tim, Sheri, Tori and Mary Jo for teaching! Y360 also offers virtual classes for members.

Members can make appointments for Monday, November 23-Wednesday, November 25 for Equipment Membership upgrades and pick-up. There are 39 pieces of fitness equipment and 50+packages of fitness class equipment (steps & hand weights/kettlebells) available. Equipment rental will be available on a first come, first served basis and rental opportunities will end when all equipment has been rented. Transportation of equipment from and back to the Y is the member's responsibility. A current membership in good standing with no returned payments for the last year is required to be eligible for equipment rental.

November membership dues drafted on November 5th or November 20th depending upon your draft date. Your membership is important to your Y and the community. We hope you will continue your membership to support the YMCA's operations, community efforts and facility upkeep during this uncertain time.

Here are your membership options:

- Keep your membership active to support your YMCA and help ensure your Y will be there for you when allowed to reopen. No action is required.
- Convert your membership payment to a donation that helps sustain your YMCA until reopening. Please call the Y so we can change this for you.
- Put your membership on hold by contacting the YMCA. You will not be charged a hold fee until the YMCA reopens.
- Cancel your membership. Due to COVID-19, this can be done by calling the YMCA.

Thank you again for your continued support during these difficult times.
